THE SOISSON.

"THE HOUSE OF THE TOLLING BELL"-With May McAvoy and Bruce Gordon in the leading roles, is today's feature attraction.

The action of the story takes place

in Louisiana, a half-forgotten spot which still shows the influence of the early French settlers. The story deals with a contested will. In the atruggle for possession of the House of the Tolling Bell, honor and up-to-date intelligence clashes with ignorance and the superstition of the natives. The liftorest centers upon a beautiful young girl, whose honer and future depends upon the issue. The struggle is ended by a surprise climax which is most amazing, yet logical and within bounds of reason. Don't miss seeing it. It is showing today at this theatre.

Mazola — the choice of leading hotels, clubs, and railroad dining cars in America! WOMEN everywhere are finding out that lard is one of the w most unsatisfactory of all cooking fats. It is absorbed into the food, making it heavy, soggy and indigestible at times. So much lard is taken up by the food during cooking that it becomes more expensive to use. Mazola is 190% pure vegetable oil. It never penetrates into the food, but sears fish or mest over, and preserves all the good flavors. At the same time, it makes the food more digestible. You too, should use Mazola for all cooking, baking, frying and zautéing purposes. Thousands of people everywhere use Mazola as a delicious salad dressing, in preference to olive oil or any other vegetable oil. It costs about half what an acceptable grade of olive oil would cost, Selling Representatives NATIONAL STARCH COMPANY, W. L. Thorn 1317 Fulton Bildg., Pittsburgh

Life Contracts

One of my old customers told me the other day that I was a good tailor, but a poor business man.

Witen I asked why, he replied: "You make "your flothes too good." "Look at this suit," he added; "you made it for me long ago and it's, hast as good today, good style, good fit no signs, of wear. How do you expect me to buy my new lothes if I can't wear out my old ones?"

Then he asked me how I did it. There is no secret about it. I simply use Detmor Woolens-the finest woolens of standard quality, and today that means the linest in the world. The trim-mings are the highest grade I can obtain. Then I build the garments to fit and hand-failor them to stay, and there you are.

When I told this to my customer he said: Well, I want to have you gray in business and take the contract to keep me well dressed for the rest of my life." Incidentally, I might add that he has sent me several new customers already. Maybe good raffering is not poor business after-

What I want is a few more life contracts like this one. I would rather sell a man a few good suits than many poor ones.

I would like to take over the contract of keep-Ing you well dressed for the rest of your life. I believe I can save you money and give you more honest-to-goodne's satisfaction then you have ever known before. ever known before...

Won't you come in and inspect my stock? "I promise you that no matter how much you like the look and feel of the fabrics—and you will like them—they will only begin to suggest how much you will like the look and feel, of the clothes when you have them on your back.

CHANDLER SIX \$1895

Chandler is Back to \$1895

Chandler's reduction to \$1895 is the news on the street today. And it's good news to the car-using public, because it means that Chandler has taken another big stride forward in the leadership of its field.

The Greatest Dollar-for-Dollar Value
Throughout the Industry

The Chandler has always been closely priced and today, at \$1895, it is decidedly the greatest value in the whole automobile industry.

The Leader of All Sixes: Most Closely Priced

It has always been the basic policy of the Chandler Company to build a really fine automobile and to price it closely. The great Chandler plant, the millions of capital employed in Chandler production are back of that statement. They exist because of that policy. Chandler is the greatest of sixes and the most fairly priced.

Constantly Refined and Improved But Never Radically Changed

Other cars of many kinds and many motors have come and gone while the Chandler Six, now in its eighth year, lives and grows, and every season multiplies its thou-

sands of friends. There is only one Chandler Six, refined and improved throughout the years but never radically changed. There is no other car like it. You will find the exclusive Chandler motor under the hood of no other car. No other car, within hundreds of dollars of the Chandler price, has the features characteristic of the high est type of design and construction for which the Chandler Six is justly famous.

Six Mandsome Chandler Body Types On One Standard Chassis

On the one standard Chandler chassis, famous for its marvelous motor and for its sturdy, dependable construction throughout, are mounted six beautiful 'yles of bodies that meet every requirement for your comfort and satisfaction. Beautiful in design, exceptionally roomy and comfortable, and highly finished, these six Chandler models invite your most exacting inspection.
